# Iodophor

Iodine 30g / L

Indication: General elimination of disease-causing organisms by application to building and equipment. For the routine disinfection of premises and equipment to control pathogens causing enteritis, septicemia and respiratory diseases in farm animals.

Dosage: To be diluted with water.

For cleaning and disinfection of livestock houses and equipment, 1:500 (200ml to 100L).

For disinfection against foot and mouth disease virus, 1:250 (400ml to 100L).

For fogging and spraying poultry houses and equipment against NCD, CRD and infectious coryza, 1:350 (300ml to 100L).

For foot baths and vehicle dips, 1:180 (550ml to 100L).

Pack size: 1L, 5L, 20L

# Klenox

Hydrogen Peroxide 50%

Indication: To mainly be used as a cleaner and disinfectant of water systems. Removes organic biofilm in the whole drinking system. Kills bacteria, yeasts and fungi in the water. To be used during empty periods. Klenox effectively decontaminates and disinfects by means of oxidation and is safe to use with minimal risk of damage to equipment. Klenox converts to oxygen and water in the water system, making it a safe option to use for the environment.

Dosage: 2.5L to 100L of water. Leave in water system for 6 hours to 24 hours.

Pack size: 5L, 25L

## Microcide

Glutaraldehyde 150g / L

Dimethyl coco benzylammonium chloride 100g /L

Indication: General elimination of disease-causing organisms by application to building and equipment.

For the routine disinfection of premises and equipment to control pathogens causing enteritis, septicemia and respiratory diseases in farm animals.

Dosage: For routine disinfection, dilute at a rate of 1:200 and apply 300ml per square meter.

To control major pathogen causing septicaemia, enteritis, respiratory diseases and canine parvovirus, 1:50.

Disinfection of drinking water, 1:3000.

Pack size: 1L, 5L, 20L

## Viruxéal

Pentapotassium Peroxymonosulfate 50%

Indication: Viruxéal is a powdered, oxidizing disinfectant with quick action, at low concentrations, and broad micro-biocidal spectrum. Effective against a wide range of fish/prawn viruses, bacteria, fungi and moulds.

Dosage: 1% Viruxéal solution is recommended for cleaning and disinfection of surfaces associated with aquaculture including: Tanks, vehicles, boats, nets, boots, waders, dive suits & other equipment.

Pack size: 5kg, 10kg
