Moxi La

DESCRIPTION AND COMPOSITION:

Moxi LA 15% is a long acting injection consisting of amoxicillin (as trihydrate) 15%. Amoxicillin is a semisynthetic broad-spectrum penicillin with a bactericidal action against both Gram-positive and Gram-negative bacteria. The range of effect includes Campylobacter, Clostridium, Corynebacterium, E. coli, Erysipelothrix, Haemophilus, Pasteurella, Salmonella, penicillinase negative Staphylococcus and Streptococcus spp. The bactericidal action is due to inhibition of cell wall synthesis. Amoxicillin is mainly excreted in urine. A major part can also be excreted in bile.

Product type: Injection

Content: Amoxicillin 150mg / ml
