Viruxeal Aqua

EXPORT ONLY

Range Pharma

DESCRIPTION AND COMPOSITION:

Introduction Viruxeal is a powdered, oxidizing disinfectant with quick action, at low concentrations, and broad microbiocidal spectrum. Effective against a wide range of fish/prawn viruses, bacteria, fungi and moulds. It contains Pentapotassium peroxymonosulfate 50%, Sodium C10-13-alkylbenzenesulfonate, Dipotassium peroxodisulphate, Malic acid, and Sulphamic acid. Characteristics · Powdered and highly concentrated with 80% active ingredients · Very rapid action against pathogens · Oxidizing agents with no risk for any adaptation of microorganisms · Broad spectrum · Only active when it is necessary · Surfactants for excellent penetration · Thoroughly tested on efficacy, dermatology, biodegradability · Powdered and long shelf life (2 years) · Non corrosive in use dilutions for human and materials · Fully biodegradable

Product type: Disinfectant

Content: Pentapotassium Peroxymonosulfate

TARGET SPECIES:

Aquaculture.

INDICATIONS:

Viruxeal is a powdered, oxidizing disinfectant with quick action, at low concentrations, and broad microbiocidal spectrum. Effective against a wide range of fish/prawn viruses, bacteria, fungi and moulds. It contains Pentapotassium peroxymonosulfate 50%, Sodium C10-13-alkylbenzenesulfonate, Dipotassium peroxodisulphate, Malic acid, and Sulphamic acid.

ROUTE OF ADMINISTRATION:

For external use only

DOSAGE:

A 1% Viruxeal Aqua solution is recommended for cleaning and disinfection of surfaces associated with aquaculture including: Tanks, vehicles, booats, nets, boots, waders, dive suits & other equipment.

SHELF LIFE:	PACK SIZE:
3 years	5kg, 10kg

DISINFECTANTS

Oxidising Agents
